4. ([Redacted] - GLC) Talked with Dana Orwick, State Department, who is the liaison contact with the Joint Committee on Atomic Energy, concerning NIE 13-2-62. I advised Orwick that the question of transmittal of this document was presently before the Director and we expected an answer within the next few days. On the basis of information previously provided by other Agency liaison contacts, Orwick had advised the Joint Committee that a document on Chinese nuclear capability had been sent to the Committee by the Agency. Orwick said James Ramey, of the Committee staff, raises this item occasionally and Orwick would like to be advised when a decision was made on this transmittal. I agreed to do this.
